So just to clarify, once we finish the comment response document, we can go ahead and issue the permit? It does not have to go back to you?

Thanks.

Hi JoAnn – NSR/PSD is typically a 30-day period for public and EPA. We have that time to make comments.

And just by way of an FYI - with a NSR/PSD permit our ability to “object” to that permits issuance is via a stop work order.

Please let me know if you have any other questions.

Thank you,

Amy

Subject: NRS/PSD Permit Question

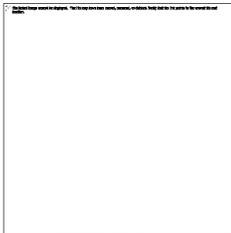

Amy,

I have a quick question regarding NSR/PSD permits. Do those installation permits have to come to the EPA for sequential 45-day review like the TVOPs?

As you know, we are processing a permit application for Allegheny Energy Center (Invenergy), and are having a public informational meeting on Thursday to address the environmental justice areas and public participation. I wasn't 100% sure if the 45-day review was the case. I've copied the permit engineer, Bernadette Lipari, as well as my personal email <Ex. 6 Personal Privacy (PP)>, so please reply to all.

Thanks,

--JoAnn
